VENGINCE "A TURN FOR THE WORST" ARTIST REVIEWS

"One of the bands to look out for in 2011 is Vengince. They are seasoned touring veterans who are well received in many countries, and they have independently sold an impressive amount of CD's without any formal distribution. If they find a good home for their next release, then they will undoubtedly take things to the next level".
- Gary Meskill/vocals & bass, PRO-PAIN

"A Turn for the Worst" is AWESOME! Vengince has created an album that shows their growth in orchestration and production. Each part compliments the other perfectly. From the Riffs to the drums to the Hard Core Vocals I am entertained from start to end. I am a BIG FAN. Great Job! - Lord Nelson/frontman for STUCK MOJO

"These songs are strong, definitely a fleshed out, broad spectrum of metal going on (I hear some of that Uneath/old N Carolina metalcore sound). The playing is very good and cohesive." - Mike Justian/drums, ex-THE RED CHORD, UNEARTH

"Vengince cannot be ignored and will not be denied." - Curran Murphy/guitarist, ex-NEVERMORE, ANNIHILATOR
